

**OSM-1000**  
**HYDRAULIC TEST MACHINE**

**Seide Machine**  
innovative design  
ensures maximum safety and  
efficiency for the user.  
its robust structure supports the  
powerful frame of hydraulic test machines.

A modern engineering approach guarantees  
long-lasting performance and high  
precision.

Carefully considered details  
highlight easy maintenance and  
superior quality.

By combining industrial  
strength with functionality  
and elegance, Hidroman

## Technical Specifications

Feature	Value
Pump Flow Rate	0.6 lt/min
Drive	6 Bar Air
Test Pressure	50 Bar – 1000 Bar
Test Capacity	1/4" – 2"
Weight	210 kg
Dimensions	2210 x 950 x 1325 mm
Model	OSM.1000
Included Solution	2 lt Concentrated Rust Preventive Solution

Precise pressure & flow control sensors

Automatic reporting and data

**Unbreakable safety glass** for maximum operator protection

PLC touch screen with user-friendly interface

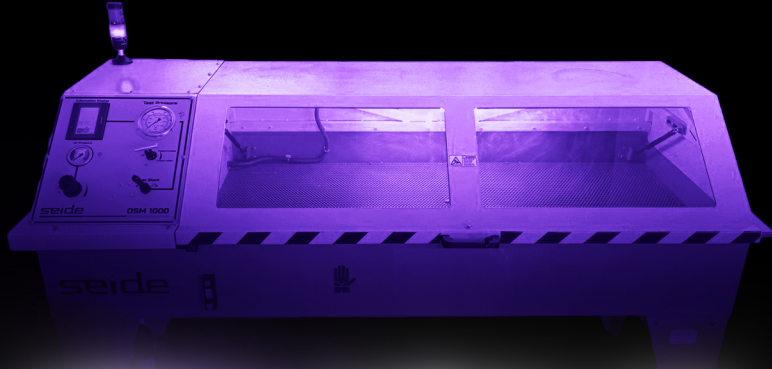

Up to 3000 bar test capacity

H 2210 x W 950 x D 1325mm

seide

**Stronger. Smarter. Safer.**
